

# SciCafé

ST. PETERSBURG '09

PRESENTED BY  
**THE PIER  
AQUARIUM**  
*Community Marine Education*

*What Does it Take  
to Be Green?*

ACS  
Chemistry for Life™

NOVA  
scienceNOW

400 BEACH  
seafood & tap house

***TOPIC: Green Chemistry and Engineering: Our Future, Our Decision***

**When: 6-7:30pm Tuesday, Oct. 20**

**Where: 400 Beach seafood & tap house**

**400 Beach Drive**

**St. Petersburg**

**Free food and drink specials**

Join our discussion about science at our next SciCafé! It'll be casual; no need to read up on the topic, no tests. Just don't be late!

Our leader for this conversation is Eric Steimle, Ph.D., a researcher and professor in the Environmental Science and Policy Program at USF St. Petersburg.

At The Pier Aquarium's SciCafé, play Beach Ball fishy trivia and win prizes, watch a short video clip, meet new friends and reconnect with others.

Maybe you'll learn about something interesting (and fun) about science and just how it relates to your everyday life.

**Please RSVP by noon Oct. 19 to guarantee seating: [estehle@pieraquarium.org](mailto:estehle@pieraquarium.org) or (727) 895-7437, ext. 207.**
